

**Invitation for Post-qualification**  
**German Financial Cooperation with Montenegro; BMZ ID 2012 66 196**  
**Water Supply and Sanitation Adriatic Coast V –Ulcinj**

Publication Ref.: BMZ ID 2012 66 196  
Title: Water Supply and Sanitation Adriatic Coast V - Ulcinj  
Type of notice: Tender Notice  
Donor: Kreditanstalt für Wiederaufbau (KfW), Germany  
Employer: Municipality of Ulcinj, Montenegro - EUROPE  
Deadline: September 30 , 2019

Scope: *Bau von Kanalisations- und Trinkwassernetzen sowie eines Trinkwassersammlers*

Construction and rehabilitation of water pipelines, springs, reservoirs, break pressure tanks, pumping stations, well fields, sewer pipelines, sea outfall sewer, manholes, civil engineering structures and buildings, supply and installation of mechanical and electrical plant and commissioning.

Project: The general objective is to contribute to economic development of Montenegro by support of tourism development in the project area, to advance protection of the environment and of water resources, and to establish a sustainable structure for service provision in the water sector at the Montenegrin Coast. Ulcinj is located at the southern end of the Adriatic main road of Montenegro. The closest international airports are in Tivat and Podgorica.

The scope of work contains:

**Mandatory Works:**

**1.) Water Supply**

Rehabilitation of spring capturing at 5 no. locations, rehabilitation of 3 no. pumping stations, and rehabilitation of 12 no. water supply wells at Lisna Bori. Rehabilitation of 1 no. reservoir and the construction of 2 no. new reservoirs, rehabilitation of 1 no. break pressure tank and the construction of 1 no. new break pressure tank. Supply and installation of bulk water meters and implementation of a SCADA system for the water supply network. Rehabilitation of existing and construction of new water supply pipelines. Rehabilitation of existing water supply pipelines and construction of new water supply pipelines along the coast line development areas south of the urban area. The rehabilitation includes some secondary and tertiary water network in the urban project area.

**2.) Sewerage**

Rehabilitation of the Djerane sea outfall sewer. Rehabilitation of sewerage pipelines primarily to separate the existing piped sewerage stormwater systems

**Optional Works:**

**1.) Water Supply**

Rehabilitation of 3 no. break pressure tanks. Rehabilitation of existing water supply pipelines including some secondary and tertiary water network.

**2.) Sewerage**

Rehabilitation of 4 no. existing sewerage lines.

The contract is based on the General Conditions that are the Bank Harmonized Edition of the Conditions of Contract for Construction prepared and copyrighted by the International Federation of Consulting Engineers (*Fédération Internationale des Ingénieurs-Conseils*, or FIDIC), FIDIC 2010 (Pink Book).

Construction period: **730 calendar days** including interruption in the works implementation over the summer tourist season period.

Defects Notification Period: **12 months**
